CYBERTRONPC CORPORATE ENVIRONMENTAL POLICY

CybertronPC's corporate policy is to provide a safe and healthful work place, protect the environment, and conserve energy and natural resources whenever and wherever reasonably possible.

CybertronPC's Corporate Environmental Policy commits the company to implementing an Environmental Management Systems (EMS) that adheres to the tenets of ISO 14001:2015 by:

- Understanding the needs of the company and structuring our EMS to balance environmental impact with company operations.
 - Identifying EMS roles and responsibilities at each level of the company.
 - Reducing risk to the environment through conserve natural resources by reusing and recycling materials, purchasing recycled materials, and using recyclable packaging and other materials.
 - Ensure the safe treatment and disposal of waste.
 - Marketing only products that are safe for their intended use, efficient in their use of energy, protective of the environment, and that can be reused, recycled or disposed of safely.
 - Leverage technology to support proper resource allocation, and ensure our office building operations contribute to a sustainable environment.
 - Ensure the responsible use of energy throughout our business, including conserving energy, improving energy efficiency, and giving preference to renewable over non-renewable energy sources when feasible.
 - Communicate our commitment to our employees, clients and vendors taking into consideration their input on issues impacting the environment.
 - Meet or exceed all applicable government and voluntary requirements by setting and adhering to stringent requirements of our own.
 - Monitor the impact of our business practices by conducting rigorous audits and self-assessments of compliance with this policy.
 - Planning, documenting (create, make available and document) and mitigating environmental risks and outcomes.
 - Improve our EMS by implementing, sustaining and continually improving this policy.
-
